WHISKEY FLIGHTS

Your Choice of 3: **\$20** -- Your Choice of 4 : **\$25**

IRISH WHISKEY

Uses a combination of malted and unmalted barley. Is renowned for smooth flavor and its hint of vanilla.

AMERICAN WHISKEY

The dominant flavors of American whiskeys are vanilla, caramel, and tannin. Rye is also a flavor included in most bourbons.

CANADIAN WHISKEY

Has fewer regulations and is blended with multiple mashes and a variety of grains. Generally, much lighter taste than American whiskeys.

Extra! *Scotch whiskey* is almost always aged in used barrels while *bourbon* is required to age in new oak barrels. It's a great symbiotic relationship that exists between scotch and bourbon producers.
